

Case Study

Location: Devi Talab Mandir, Jalandhar

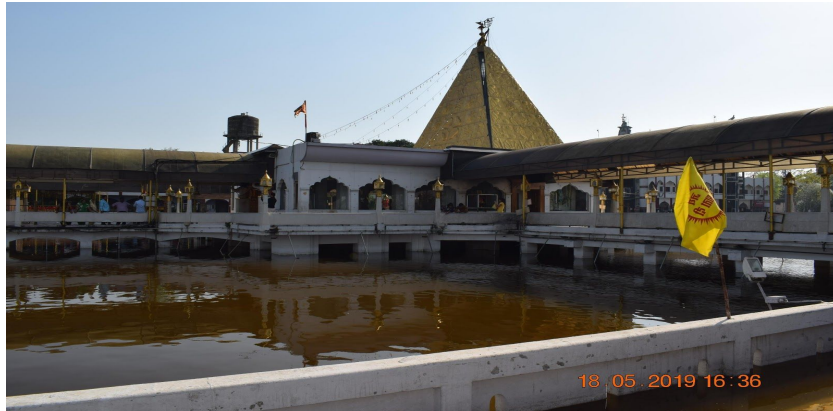

About Devi Talab Mandir:

- One of the 51 Shakthi Pithas in India,
- More than 200 years old temple Devi Talab Mandir, of Goddess Kali,
- The Maa Kali is known as Maa Tripurmalini as the Sati's right breast fell here.
- Lord Shiva of this temple is known as Bhishan Bhairav.
- The gilded mandir is famous for **Shree Baba Harivallabh Sangeet Sammelan**, the oldest festival of Indian Classical Music in the world.
- Since 1875, festival is organized in the last weekend of December every year at the sacred seat of music, the Samadhi of Baba Harivallabh – a saint and an exponent of Hindustani Classical Music.

Challenges:

- Sacred Pond is more than 200 Years old,
- Prime focus on Cleaning Talab Water (approx. 22-25 Lakh litre) without using any chemicals and affecting fishes in Talab,

- Upgrading to higher Green, Hygienic and Cleanliness water standards for devotees, pilgrims and visitors.

Devi Talab Mandir (before starting Treatment)

DTMPC team participated in dosing BioTic Water Treatment Solution

Solution provided by BioTic: OXIBON (Liquid based)

Achievements:

Before starting treatment (18.5.2019)

After 12 hours of treatment (19.5.2019)

Mr. Sushil Tripathi (BioTic-Founder & CEO) with Devi Talab Mandir Prabandhak Committee (DTMPC) Trustee team

With the sincere Initiative taken by Devi Talab Mandir Prabandhak Committee (DTMPC) and BioTic - we formulated Green and organic solution for cleaning Talab water, maintaining devotees trust as well as fishes lives in the Talab.
