ABOUT US

Biotic Solutions LLP is one stop shop for organic environmental friendly products for industrial application for the purpose of cleaning, degreasing and disinfection to achieve high quality of hygiene which is safe for humans, flora, fauna and the environment. Serving the hospitality, health care, food processing, commercial laundry industry for more than 2 years, we pride ourselves that in such a short period of time we have elevated service standards and unequalled reputation for courtesy and follow-through.

Jabeel Palace, Dubai was looking for a solution to replace chlorine treatment with a better disinfection solution for their swimming pools to provide a chlorine free experience to their guests. The exorbitant cost of a chlorine free system was deterring the management to make a decision. A single pilot project was sufficient to prove the efficacy of our solution.

KEY CLIENTS

Our reliability and award-winning customer service earned us an impressive client list including:

3C FM
JABEEL PALACE, DUBAI
UP GOVERNMENT

“We don’t merely ensure that your swimming pool is clean and hygienic; we can help you realize your dream of healthy, safe and irritation free swimming experience.”

How Safe are our Swimming Pools?

- How Safe are our Swimming Pools?
- Chlorine Content too High
- Ineffective Disinfection
- Skin & Eye Irritation
- Chemicals are Cryogenic
- High Maintenance Cost

BIOTIC UV

- Easily installed on filter pad
- Simple and easy to operate
- Stress free maintenance
- EPA WHO recommended
- Chlorine Free
- Easy to control pH

BIOTIC UV TREATMENT

- Incredible Lasting
- Disinfection
- Healthy and Clean Water
- Amazing Swimming Experience
- Easy on the Pocket
- Cut up to 90% Chemicals
- 99.5% Pathogen Free
- Disrupts the RNA and DNA

“Biotic organic nurtures your pool water back to health with UV light. UV pool sanitation is like pressing the reset button, so your pool can be at its best. UV is the non-chemical technology used by New York City to purify drinking water.

The results are equally impressive in swimming pools. You'll enjoy a pool that is safe, healthy, and a lot easier to manage.”

BIOTIC UV FEATURES

- Booster coated Powerful UV Lamp
- 40% Reduction in Power
- Non Corrosive SS 216 Housing
- Hydrodynamically designed
- Home and Commercial Usage

UV breaks hypochlorous acid from ammonia, destroying the Chloramines. Chloramine & Trihalomethane causes foul odor, dryness, burning eyes, & skin irritation. They are linked to conditions like swimmers asthma and bladder cancer.

GET RID OF HARSH POOL CHEMICALS

Credible scientific studies tell us that chemical levels are way too high resulting in an increased risk of allergies, asthma, and disease. Ultraviolet lets you sleep better at night. UV does the heavy lifting by eliminating 99.5% of pool pathogens. The result? You'll need about 90% less chemicals

THANK YOU!
